## CDC Cloth Mask Recommendations

CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies).

CDC also advises the use of simple cloth face coverings to slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others.

The cloth face coverings recommended are not surgical masks or N-95 respirators.

Those are critical supplies that must continue to be reserved for healthcare workers and other medical first responders, as recommended by current CDC guidance
